

Dedicated Hours for Seniors

Lady York Foods has elected to assist the seniors in our neighbourhood by offering one hour of shopping each day dedicated to seniors and those who may require special assistance. We understand that during the **Covid-19** health crisis it is difficult for some to get out to get the groceries that they need. By having our store open to those customers, we hope to be able to help those very people.

Effective Wednesday March 18th 2020, Lady York Foods will be open to only the following customers between the hours of 8:00 AM & 9:00 AM;

- **Seniors 65 years of age or older (especially the elderly)**
- **Any elderly customer that requires the assistance of a younger family member may be accompanied by just one younger family member. (The exception being if that one family member has to have younger children with them).**
- **Any customer with special needs who may require physical assistance**

Please be advised that our staff will be ready and available to provide help in obtaining any items in our store in an effort to help this process go smooth for those customers in need.

As per our most recently posted sanitization polices, our store will be clean and safe for all those who visit and are more sensitive to the **Covid-19** virus.

We thank all other customers for their patience and understanding during this time and trust that you all support this temporary policy to help those disadvantaged and in special need.
